

in charge, one or more State representatives, one or more accredited veterinarians, when possible, and one or more owners of flocks, and, at the discretion of the area veterinarian in charge, may include other members.

PART 55—CONTROL OF CHRONIC WASTING DISEASE

Sec.

55.1 Definitions.

Subpart A—Chronic Wasting Disease Indemnification Program

- 55.2 Payment of indemnity.
- 55.3 Appraisal and destruction of captive cervids.
- 55.4 Disinfection of premises, conveyances, and materials.
- 55.5 Presentation of claims for indemnity.
- 55.6 Mortgage against animals.
- 55.7 Claims not allowed.
- 55.8 Official CWD tests and approval of laboratories to conduct official CWD tests.

Subpart B—Chronic Wasting Disease Herd Certification Program

- 55.21 Administration.
- 55.22 Participation and enrollment.
- 55.23 Responsibilities of States and enrolled herd owners.
- 55.24 Herd status.
- 55.25 Animal identification.

AUTHORITY: 21 U.S.C. 111–113, 114, 114a, 114a–1, 120, 121, 125, and 134b; 7 CFR 2.22, 2.80, and 371.4.

EFFECTIVE DATE NOTE: At 71 FR 41701, July 21, 2006, the authority citation for part 55 was revised, effective Oct. 19, 2006. At 71 FR 52983, Sept. 8, 2006, the effective date was delayed until further notice. For the convenience of the user, the revised text is set forth as follows:

AUTHORITY: 7 U.S.C. 8301–8317; 7 CFR 2.22, 2.80, and 371.4.

SOURCE: 67 FR 5931, Feb. 8, 2002, unless otherwise noted.

§ 55.1 Definitions.

Administrator. The Administrator, Animal and Plant Health Inspection Service, or any other employee of the Animal and Plant Health Inspection Service, United States Department of Agriculture, delegated to act in the Administrator's stead.

Animal. Any captive cervid.

Animal and Plant Health Inspection Service (APHIS). The Animal and Plant

Health Inspection Service of the United States Department of Agriculture.

APHIS employee. Any individual employed by the Animal and Plant Health Inspection Service who is authorized by the Administrator to do any work or perform any duty in connection with the control and eradication of disease.

Captive. Animals that are privately or publicly maintained or held for economic or other purposes within a perimeter fence or confined space. Animals that are held for research purposes are not included.

Cervid. All members of the family Cervidae and hybrids, including deer, elk, moose, caribou, reindeer, and related species.

Chronic wasting disease, CWD. A transmissible spongiform encephalopathy of cervids.

CWD exposed animal. An animal that is part of a CWD positive herd, or that was part of a herd within 5 years prior to that herd's designation as CWD positive, or an animal that has been housed with or been in direct contact with a positive animal, or an animal that has been on a contaminated premises.

CWD positive animal. An animal that has had a diagnosis of CWD confirmed by means of an official CWD test.

CWD positive herd. A herd in which a CWD positive animal resided at the time it was diagnosed and which has not been released from quarantine.

CWD suspect animal. An animal for which an APHIS employee has determined that laboratory evidence or clinical signs suggest a diagnosis of CWD.

Department. The United States Department of Agriculture.

Herd. A group of animals that are:

(1) Under common ownership or supervision and are grouped on one or more parts of any single premises (lot, farm, or ranch) or

(2) All animals under common ownership or supervision on two or more premises which are geographically separated but on which animals have been interchanged or had direct or indirect contact with one another.

Herd plan. A written herd management agreement developed by APHIS with input from the herd owner, State representatives, and other affected parties. A herd plan sets out the steps to be taken to eradicate CWD from a CWD

§ 55.1, Nt.

9 CFR Ch. I (1–1–10 Edition)

positive herd, or to prevent introduction of CWD into another herd. A herd plan will require: specified means of identification for each animal in the herd; regular examination of animals in the herd by a veterinarian for signs of disease; reporting to a State or APHIS representative of any signs of central nervous system disease in herd animals; maintaining records of the acquisition and disposition of all animals entering or leaving the herd, including the date of acquisition or removal, name and address of the person from whom the animal was acquired or to whom it was disposed, cause of death, if the animal died while in the herd. A herd plan may also contain additional requirements to prevent or control the possible spread of CWD, depending on the particular condition of the herd and its premises, including but not limited to: specifying the time for which a premises must not contain cervids after CWD positive, exposed, or suspect animals are removed from the premises; fencing requirements; depopulation or selective culling of animals; restrictions on sharing and movement of possibly contaminated livestock equipment; cleaning and disinfection requirements, or other requirements. APHIS may review and revise a herd plan at any time in response to changes in the situation of the herd or premises or improvements in understanding of the nature of CWD epidemiology or techniques to prevent its spread.

Materials. Parts of barns or other structures, straw, hay, and other feed for animals, farm products or equipment, clothing, and any other articles on the premises that have been in contact with captive cervids.

Mortgage. Any mortgage, lien, or other security or beneficial interest held by any person other than the one claiming indemnity.

Official appraiser (APHIS official appraiser, State official appraiser). A person authorized by APHIS (an APHIS official appraiser) or a State (a State official appraiser) to appraise animals for the purposes of this part. An official appraiser may be an APHIS employee, a State employee, or a professional livestock appraiser working under contract to APHIS or a State.

Official CWD test. Any test for the diagnosis of CWD approved by the Administrator and conducted in a laboratory approved by the Administrator in accordance with § 55.8 of this part.

Person. Any individual, corporation, company, association, firm, partnership, society, joint stock company, or other legal entity.

Secretary. The Secretary of Agriculture of the United States, or any officer or employee of the Department delegated to act in the Secretary's stead.

State. Each of the States of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, Guam, the Virgin Islands of the United States, or any other territory or possession of the United States.

State representative. A person regularly employed in the animal health work of a State and who is authorized by that State to perform the function involved under a cooperative agreement with the United States Department of Agriculture.

Veterinarian in charge. The veterinary official of Veterinary Services, APHIS, who is assigned by the Administrator to supervise and perform official animal health work for APHIS in the State concerned.

EFFECTIVE DATE NOTE: At 71 FR 41701, July 21, 2006, § 55.1 was amended by removing the definition of *captive*; in the definition of *herd*, by removing the words “A group of animals” and adding in their place the words “One or more animals”; by revising the definitions of *animal*, *CWD-exposed animal*, *CWD-positive animal*, *CWD-suspect animal*, and *herd plan*; and by adding definitions for *animal identification*, *animal identification number (AIN)*, *Approved State CWD Herd Certification Program*, *commingled*, *commingling*, *CWD-exposed herd*, *CWD Herd Certification Program*, *CWD-source herd*, *CWD-suspect herd*, *deer*, *elk*, and *moose*, *farmed or captive*, *herd status*, *official animal identification*, *premises identification number (PIN)*, *trace back herd*, and *trace forward herd*, in alphabetical order, effective Oct. 19, 2006. At 71 FR 52983, Sept. 8, 2006, the effective date was delayed until further notice. For the convenience of the user, the revised and added text is set forth as follows:

§ 55.1 Definitions.

* * * * *

Animal and Plant Health Inspection Service, USDA

§ 55.1, Nt.

Animal. Any farmed or captive cervid.

* * * * *

Animal identification. A device or means of animal identification approved for use under this part by APHIS. Examples of animal identification devices that APHIS has approved are listed in § 55.25.

Animal identification number (AIN). A numbering system for the official identification of individual animals in the United States. The AIN contains 15 digits, with the first 3 being the country code (840 for the United States), the alpha characters USA, or the numeric code assigned to the manufacturer of the identification device by the International Committee on Animal Recording.

* * * * *

Approved State CWD Herd Certification Program. A program operated by a State government for certification of cervid herds with respect to CWD that the Administrator has determined to meet the requirements of § 55.23(a).

* * * * *

Commingled, commingling. Animals are commingled if they have direct contact with each other, have less than 10 feet of physical separation, or share equipment, pasture, or water sources/watershed. Animals are considered to have commingled if they have had such contact with a positive animal or contaminated premises within the last 5 years.

CWD-exposed animal. An animal that is part of a CWD-positive herd, or that has been exposed to a CWD-positive animal or contaminated premises within the previous 5 years.

CWD-exposed herd. A herd in which a CWD-positive animal has resided within 5 years prior to that animal's diagnosis as CWD-positive, as determined by an APHIS employee or State representative.

CWD Herd Certification Program. The Chronic Wasting Disease Herd Certification Program established by this part. This program includes both herds that are directly enrolled in the CWD Herd Certification Program and herds that are included based on their participation in Approved State CWD Herd Certification Programs.

CWD-positive animal. An animal that has had a diagnosis of CWD confirmed by means of two official CWD tests.

* * * * *

CWD-source herd. A herd that is identified through testing, tracebacks, and/or epidemiological evaluations to be the source of CWD-positive animals identified in other herds.

CWD-suspect animal. An animal for which an APHIS employee or State representative has determined that unofficial CWD test results, laboratory evidence or clinical signs suggest a diagnosis of CWD, but for which official laboratory results have been inconclusive or not yet conducted.

CWD-suspect herd. A herd for which unofficial CWD test results, laboratory evidence, or clinical signs suggest a diagnosis of CWD, as determined by an APHIS employee or State representative, but for which official laboratory results have been inconclusive or not yet conducted.

Deer, elk, and moose. All animals in the genera *Odocoileus*, *Cervus*, and *Alces* and their hybrids.

* * * * *

Farmed or captive. Privately or publicly maintained or held for economic or other purposes within a perimeter fence or confined area, or captured from a free-ranging population for interstate movement and release.

* * * * *

Herd plan. A written herd and/or premises management agreement developed by APHIS in collaboration with the herd owner, State representatives, and other affected parties. The herd plan will not be valid until it has been reviewed and signed by the Administrator, the State representative, and the herd owner. A herd plan sets out the steps to be taken to eradicate CWD from a CWD-positive herd, to control the risk of CWD in a CWD-exposed or CWD-suspect herd, or to prevent introduction of CWD into that herd or any other herd. A herd plan will require specified means of identification for each animal in the herd; regular examination of animals in the herd by a veterinarian for clinical signs of disease; reporting to a State or APHIS representative of any clinical signs of a central nervous system disease or chronic wasting condition in the herd; maintaining records of the acquisition and disposition of all animals entering or leaving the herd, including the date of acquisition or removal, name and address of the person from whom the animal was acquired or to whom it was disposed; and the cause of death, if the animal died while in the herd. A herd plan may also contain additional requirements to prevent or control the possible spread of CWD, depending on the particular circumstances of the herd and its premises, including but not limited to depopulation of the herd, specifying the time for which a premises must not contain cervids after CWD-positive, -exposed, or -suspect animals are removed from the premises; fencing requirements; selective culling of animals; restrictions on sharing and movement of possibly contaminated

§ 55.2

livestock equipment; premises cleaning and disinfection requirements; or other requirements. A herd plan may be reviewed and changes to it suggested at any time by any party signatory to it, in response to changes in the situation of the herd or premises or improvements in understanding of the nature of CWD epidemiology or techniques to prevent its spread. The revised herd plan will become effective after it is reviewed by the Administrator and signed by the Administrator, the State representative, and the herd owner.

Herd status. The status of a herd assigned under the CWD Herd Certification Program in accordance with § 55.24, indicating a herd's relative risk for CWD. Herd status is based on the number of years of monitoring without evidence of the disease and any specific determinations that the herd has contained or has been exposed to a CWD-positive, -exposed or -suspect animal.

* * * * *

Official animal identification. A device or means of animal identification approved for use under this part by APHIS to uniquely identify individual animals. Examples of approved official animal identification devices are listed in § 55.25. The official animal identification must include a nationally unique animal identification number that adheres to one of the following numbering systems:

- (1) National Uniform Eartagging System.
- (2) Animal identification number (AIN).
- (3) Premises-based number system. The premises-based number system combines an official premises identification number (PIN), as defined in this section, with a producer's livestock production numbering system to provide a unique identification number. The PIN and the production number must both appear on the official tag.
- (4) Any other numbering system approved by the Administrator for the identification of animals in commerce.

* * * * *

Premises identification number (PIN). A unique number assigned by a State or Federal animal health authority to a premises that is, in the judgment of the State or Federal animal health authority, a geographically distinct location from other livestock production units. The premises identification number is associated with an address or legal land description and may be used in conjunction with a producer's own livestock production numbering system to provide a unique identification number for an animal. The premises identification number may consist of:

- (1) The State's two-letter postal abbreviation followed by the premises' assigned number; or

9 CFR Ch. I (1–1–10 Edition)

- (2) A seven-character alphanumeric code, with the right-most character being a check digit. The check digit number is based upon the ISO 7064 Mod 36/37 check digit algorithm.

* * * * *

Trace back herd. A herd in which a CWD-positive animal formerly resided.

Trace forward herd. A herd that has received exposed animals from a CWD-positive herd within 5 years prior to the diagnosis of CWD in the positive herd or from the identified date of entry of CWD into the positive herd.

* * * * *

Subpart A—Chronic Wasting Disease Indemnification Program

§ 55.2 Payment of indemnity.

The Administrator is authorized to pay for the purchase and destruction of CWD positive animals, CWD exposed animals, and CWD suspect animals. Subject to available funding, the amount of the Federal payment for any such animals will be 95 percent of the appraised value established in accordance with § 55.3 of this part, but the Federal payment shall not exceed \$3,000 per animal. If a non-Federal source makes a payment for an animal for which a Federal indemnity is paid, and the non-Federal payment exceeds 5 percent of the appraised value established in accordance with § 55.3 of this part, the amount of the Federal payment for any such animals will be reduced by the amount by which the non-Federal payment exceeds 5 percent of the appraised value. The Administrator is also authorized to reimburse State governments or State animal health agencies for payments they make for the purchase and destruction, on or after October 1, 2001, of CWD positive animals, CWD exposed animals, and CWD suspect animals, and for State expenditures for associated carcass disposal and cleaning and disinfection costs resulting from such purchase and destruction, in accordance with cooperative agreements signed by the Administrator and the duly authorized agent of the State.
